

**Batch 2017-2018**

**Job Description- Web Developer**

**Compensation: 2.30 Lacks per Annum**

**Profile Name:** Web Developer

**Location:** Lucknow

**Years of Experience:** Fresher

**JOB DESCRIPTION:**

This position involves leading custom web development throughout the entire project life cycle. You will experience the freedom of building custom web sites using your own leadership and programming skills. Our web developers are capable of full cycle project leadership including application architecture, design input, site layout/user interface, database design/programming, and .NET development.

The right individual for this role will be a motivated and energetic developer who takes initiative, enjoys finding solutions to a varying number of challenges, is detail-oriented, and takes extreme pride in their work. If you thrive by working side by side with one of the most experienced and professional teams in the industry while leading your solutions to successful completion, consider this opportunity as the next level in your professional development.

**REQUIREMENTS/SKILLS:**

- Sound knowledge on web development, using HTML, JavaScript, PHP,CSS, ASP.Net, C#, and T-SQL preferred.
- Candidates should have proven .NET experience as well as a solid understanding of Object Oriented Design and Programming.
- A solid understanding of web application development processes, from the layout/user interface to relational database structures.
- Understanding the benefits of SEO and the development skills to support SEO are a plus. Strong communication and writing skills.
- Ability to communicate directly with peers, managers, and clients while leading development to a completed and successful solution.

**C-Core India Technosolution Private Limited**  
**An ISO 9001:2008 Certified Company**  
**The Core Of Information Technology**

### **PRIMARY RESPONSIBILITIES:**

- Creation of site layout/user interface from provided design concepts by using standard HTML/CSS practices.
- Placement and layout of web site pages given client provided content.
- Development of robust and user-friendly .NET-based SQL Server T-SQL development.
- Application/Framework design as needed.
- Specifications/Requirements gathering as needed.
- Routine daily maintenance of existing sites and applications.

### **DAILY TASKS:**

- Assist in gathering requirements and project specifications. Attend project kickoff meetings with clients.
- Take ownership of daily project needs and communications.
- Communicate project status and deliverables with managers and clients. ○ Record time daily.
- Design, create and program SQL Server databases per project needs. ○ ASP.Net (C#) development per project needs.
- Manage project tasks, timelines, and communication. Perform routine site maintenance as needed.
- Other tasks as needed for successful project completion.
